SUMMARY

Enthusiastic Information Technology student with a strong background in web development and data insights. Adapt at collaborating with peers, managing deadlines effectively, and maintaining a proactive work ethic. Familiar with MS Office Suite and strategic planning, ready to contribute to team success while adapting to diverse technical roles.

PROJECTS

Course Comparision Website (In Progress)

Member of team to design and develop a web platform that aggregates online courses from multiple platforms (Coursera, Udemy), enabling users to search, filter, and compare courses side-by-side. Implemented personalized recommendations and a review/rating system.

- **Frontend** — HTML/CSS/JS covers UI, search, filters, comparison tables
- **Backend** — PHP handles auth, APIs, business logic
- **Database** — MySQL maps directly to data dictionary (Course, User, Student, Account tables documented in your practical)

CAREER GOALS

Aspiring Web Developer: seeking an entry-level role to apply my web development skills and gain industry experience. Currently learning and exploring the MERN stack in parallel with the goal of becoming a full-stack developer.

CERTIFICATES

Udemy (Hitesh Chaudhary): Completed Web Development Course (Ongoing)

- Learning Full-Stack Web Development using HTML, CSS, JavaScript, React.js, Node.js, Express.js, MongoDB, Git, and deployment tools.
- Built responsive web applications and REST APIs through hands-on projects.
- About to gain practical experience with the MERN stack, database management, authentication, and version control.
